## SUMMARY

I am a talented creative director and designer with over 10 years of professional experience in web, multimedia, mobile, kiosk design, user interface, print, traditional art, management, marketing, data and content coordination.

I am skilled in gathering requirements from business partners and translating them from concept to completion. In addition, I have a proven track record directing multiple projects with aggressive deployment schedules. I have an impressive background leading teams, developing innovative branding, crafting educational training material, and pioneering solutions for a wide range of audiences. I am adept at working individually and among cross-functional teams to produce quality results on time and under budget.

## EMPLOYMENT

**Creative Director, Corporate Business Intelligence**  
**Southern Wine & Spirits of America**  
*Union City, CA*

November 2000-Present

- **Overview:** Responsible for the unified standard look, feel, and user experience for the largest alcohol distribution company in the U.S. Oversaw the design and layout for web applications, defined design criteria, developed logos, brand identity, and brand guidelines to ensure successful programs through a mix of all media elements. Handled coordination to include day-to-day management duties, and deployment of enterprise wide solutions including sales force automation devices and other forward thinking solutions.
- Coordinated enhancements, managed projects and teams, mentored designers, ran usage, traffic, and sales reports, conducted demos, designed flash presentations, brand kick-offs, QA (load and regression testing), and gathered approval for applications through user-acceptance testing.
- **MDM:** Spearheaded, designed and coded user interface, wrote business and functional specifications for a half million dollar enterprise level web-based solution for a master data management project which served as a data reconciliation system and helped to standardize classification for all items and product attributes including digital asset management system. Worked with Subject Matter Experts to normalize content and create workflow. Coordinated with 3<sup>rd</sup> party plus in-house development teams to integrate this single source cloud data management system with proprietary applications.  
<http://MDM.SouthernWine.com>
- **B2B:** Gathered requirements, designed user interface, and wrote documentation for the online selling channel as well as deploying the website that brought in over \$20 million nationally and grew business more than 3x the revenue of each past calendar year through web and traditional media marketing. Interfaced with in-house business units, customers, and suppliers to meet local regulatory / compliance requirements and create a productive relationship with executives throughout the nation.  
<http://www.SouthernWineOnline.com>
- **CMS:** Designed user interface and deployed intranet, public facing website, and importer site built with DNN and SharePoint. The intranet helped reduce printing costs to save the company more than 6 figures annually. Worked to create workflow strategies to improve efficiency and manage content. Also sent weekly e-mail marketing newsletters with updates.
